

**Supplemental Figure 2. Example mapping content available at <http://lungtranscriptome.bwh.harvard.edu>.** The summary table information includes probe set and platform queried, number of probes included in probe set, matching Unigene and RefSeq. The diagram depicts the probe set-matching RefSeq transcript (blue), coding region of the transcript (orange) and the location of individual probe sequences.

**Summary**

Probe Set	200092_s_at	Refseq	NM_000997
Platform	Hu133B	Common Name	Ribosomal protein L37
Total Probes	11	Locus Link	6167
Unigenes Mapped to	1	Unigene	Hs.80545
Refseqs Mapped to	1	Mapped Probes	11-Jan
